Public Exhibition

York and North Yorkshire's households produce around 470,000 tonnes of rubbish each year, with just over half of it ending up in landfill.

We're looking at new ways of dealing with this waste, with the aim of creating a more environmentally friendly and cost effective solution for the county.

A series of public exhibitions are being held to give you the opportunity to find out more about our proposals for a new recycling and

energy recovery facility – **Allerton Waste Recovery Park.**
